

Powerful, Lightweight, One-piece Railcar Vibrator

Finally, a lightweight railcar vibrator that packs a powerful punch!

The QMC3-RR features a streamlined one-piece design, reducing total weight to just 52 pounds, including the wedge head mount. The unit is easier for operators to lift, carry, and place on the railcar.

The QMC3-RR delivers the same **powerful force as standard 3"** hopper car vibrators to ensure efficient unloading of your material.

Features:

- Weight: 52 Pounds
- Frequency: 3300 VPM
- Force: 1558 Pounds
- Ductile Iron Body
- Hard Chrome Plated Piston
- Available in Impacting or Air Cushioned models
