

# GT Series Turbine Vibrators

Need Quiet AND Low Maintenance?

The GT Series  
fits the bill

## GT Series Pneumatic Turbine Vibrators

GT Series Pneumatic Turbine Vibrators are ideal for applications in the food and pharmaceutical industries, and others involving fine, dry powders that respond well to high frequency vibration. They require no lubrication, and produce less noise than other types of rotary pneumatic vibrators.

There are 12 models available, with forces to over 2300 pounds. Some sizes are also available in stainless steel housings.

## Standard features & benefits

- Lightweight Alloy Body, powder coated to resist corrosion
- Matched & shielded ball bearings pre-lubricated with long life grease
- Low noise output
- Low air consumption\*
- Adjustable force and frequency
- Exhaust muffler included

## Available Options & Accessories

- Bin/Hopper/Chute Mounting Kits
- Pipe Mounting Kits
- Air Prep Components
- Air Hoses
- Pneumatic and Electronic Timers
- Stainless Housings (available for some sizes)

\*as compared to other types of rotary vibrators with similar force output

## A few common applications Include:

- Food Ingredient bins
- Pharmaceutical Ingredient bins
- Weigh hoppers
- Light duty vibrating tables & platforms
- Small feeders
- Transfer pipes
- Chutes

Stainless Steel models are available in some sizes. See the GTSS Series on our website.

Contact the Houston Vibrator sales team for assistance in choosing the right vibrator for your application requirements.
